TECHNICAL SKILLS

My Core Expertise : React Js, Next Js, Node Js, Express Js, MongoDB, PostgreSQL

Technologies I Use : JavaScript, TypeScript, HTML, CSS, Bootstrap, Tailwind CSS, React Js, Next JS, Redux-Toolkit, Node JS, Express JS, Material UI, Semantic UI, HeroUI, ShadCn, Ant Design, MongoDB, PostgreSQL, Framer Motion, WebSockets (Socket.io), Real-Time Systems (SIP.js, FreeSWITCH), Figma

Tools : VS Code, Git/GitHub, PostMan, MongoDB Compass

APIs & Integrations : OpenAI API, Deepgram API, SendGrid API

EXPERIENCE

Magic Technolabs Pvt. Ltd | MERN Stack Developer

SEP 2024 - PRESENT

- Currently working as a MERN Stack Developer, building intuitive and user-friendly web applications while handling both frontend and backend development.
- Focused on writing clean, scalable, and efficient code to deliver seamless user experiences.
- Collaborated with the App Team to design and implement robust RESTful APIs.
- Integrated AI-based features using OpenAI API and Deepgram for voice processing.
- Implemented email services using SendGrid for plan purchase confirmation and transactional workflows.

Sulok Digital Solutions Pvt Ltd | Frontend Developer

MAY 2023 - MAY 2024

- Completed a 6-month frontend internship at Sulok Digital Solutions Pvt. Ltd., gaining hands-on experience in HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React, and Next.js while enhancing my web development skills.
- Continued working at the same company for an additional 6 months as a Frontend Developer, further refining my expertise in building responsive, dynamic web applications and contributing to various projects.

MY KEY PROJECTS

DailyDesk HRMS | Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, PostgreSQL, Socket.io, Redux Toolkit

- A full-stack HR Management System with role-based access (Super Admin, Organization, Employee) for managing workforce operations efficiently.
- Developed authentication and organization management with admin controls.
- Implemented employee management with attendance tracking (check-in/out, lunch-in/out).
- Built leave and holiday management with approval workflows.
- Created attendance correction ticket system with approval-based updates.
- Integrated real-time notifications for requests and approvals.
- Developed subscription and payment system with plan purchase, activation, and renewal.
- Implemented payroll module with salary calculation, leave deductions, and payslip generation.
- Designed an analytics dashboard with attendance, leave, payroll insights, and organization-level statistics.

VoizCall | Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, MySQL, SIP.js, FreeSWITCH, Firebase Redux Toolkit

- A scalable full-stack VoIP platform supporting multi-role architecture (Super Admin, Organization, Agent) with secure role-based authentication and access control.
- Built a real-time calling system using SIP.js and FreeSWITCH with features like call hold, mute/unmute, attended & blind transfer, and conference calling.
- Integrated AI-powered communication using OpenAI and Deepgram, including Text-to-Speech (TTS).
- Developed AI Bot functionality to generate dynamic call flow prompts using chat-based interactions with OpenAI API.
- Integrated email services using SendGrid for notifications and alerts.
- Designed a resilient incoming call system using Firebase Push Notifications to auto re-register SIP clients and connect calls seamlessly.
- Enabled organizations to manage phone numbers via Twilio, including IVR, call queues, and broadcasting campaigns with auto agent assignment.
- Built subscription and plan management with agent limits and feature controls.
- Developed a real-time dashboard for live call tracking, agent availability, and activity analytics.

Assist Care | Next.js, TypeScript, Tailwind CSS, Shadcn, Redux Toolkit, Socket.io, Framer Motion

- A large-scale hospitality service platform supporting multiple user roles (Super Admin, Government/Agency Admin, Client, Caregiver, Doctor, Therapist, Psychologist, and Pharmaceutical). Features include centralized admin monitoring with audit logs, real-time caregiver location tracking via Socket.io, appointment booking and caregiver assignment, and an XMPP-based chat system supporting text, voice notes, media, and documents. Role-based access control ensures secure, permission-driven feature visibility across all user types.

NTGiubileo | Node.js, Express.js, MongoDB | Next.js, TypeScript, Tailwind CSS, Redux Toolkit, Ant Design, Material UI

- A full-stack platform comprising a RESTful API, Admin Panel, and User Frontend. The backend handles authentication, plan management, order processing, and transactions using MongoDB aggregation for complex data. The admin panel supports country/region-specific plan creation, bonus plan management, user purchase history, and content management with secure server-side API calls. The user-facing frontend features a polished landing page with Framer Motion animations, a secure authentication flow, and React-Credit-Card integration for plan purchases.

NTMobile Admin Panel | Next.js, TypeScript, Tailwind CSS, Ant Design, Redux Toolkit

- An admin panel built for an Italy-based client to manage VIP and regular number plans, enabling users to purchase plans through the platform. Includes order tracking with user details, transaction management for payment monitoring, a user data management system, and a FAQs section for easy content updates.

EDUCATION

MCA

College : Dr. Subhash University

University : Dr. Subhash University

CGPA : 7.24

2024 - 2026

BCA

College : Dr. Subhash University

University : Bhakta Kavi Narsinh Mehta University.

Percentage : 86%

2021 - 2024
