SKILLS

My Core Expertise : React Js, Next Js, Node Js, Express Js, MongoDB

Technologies I Use : JavaScript, TypeScript, HTML, CSS, Bootstap, Tailwind CSS , Sass, React Js, Next JS,Next JS, Reducx-Toolkit, Node JS, Express JS, Material UI, Semantic UI, HeroUI,ShadCn, Ant Design, MongoDb, Framer Motion, Styled-Components, Figma

Tools : VS Code, Git/GitHub, PostMan,MongoDBCompass

EXPERIENCE

Magic Technolabs Pvt. Ltd | React Js Developer

SEP 2024 - PRESENT

- Currently working as a MERN Stack Developer at Magic Technolabs Pvt. Ltd., creating intuitive, user-friendly web applications while handling both frontend and backend development.
- Focused on delivering seamless user experiences with clean, scalable, and efficient code.
- Collaborated seamlessly with the App Team to design and implement a comprehensive Restful API

Sulok Digital Solutions Pvt Ltd | Frontend Develper

MAY 2023 - MAY 2024

- Completed a 6-month frontend internship at Sulok Digital Solutions Pvt. Ltd., gaining hands-on experience in HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React, and Next.js while enhancing my web development skills.
- Continued working at the same company for an additional 6 months as a Frontend Developer, further refining my expertise in building responsive, dynamic web applications and contributing to various projects.

MY KEY PROJECTS

Assist Care | Next.js, TypeScript, Tailwind CSS, Shadcn, Redux Toolkit, Socket.io, Framer Motion, XMPP

- Project Overview:
 - Large-scale hospitality service platform managing diverse user roles and real-time communication.
- User Roles and Permissions:
 - Implemented a robust access control system for roles like Super Admin, Government Admin, Agency Admin, Client, Caregiver, Doctor, Therapist, Psychologist, and Pharmaceutical.
- Key Features:
 - Super Admin Panel: Centralized monitoring of users, admins, and audit logs.
 - Live Caregiver Tracking: Real-time location tracking using Socket.io for Agency, Government, and Super Admins.
 - Appointment Management: Clients book appointments through agencies, which assign caregivers and specialists.
 - Real-Time Chat System: Integrated XMPP-based chat supporting text, voice notes, media, PDFs, and Excel files.
 - Access Control: Centralized permissions to ensure role-based access to platform features.

NTGiubileo

NTGiubileo API | Node Js, Express JS, MongoDB

- Developed a robust RESTful API using Node.js and Express.js with MongoDB as the database.
- Implemented authentication, plan management, order processing, transaction handling, and user management.
- Gained in-depth experience with Node.js, Express.js, and MongoDB, especially in using aggregation queries for complex data handling.
- Focused on providing a reliable backend to support the admin panel and a React Native application.

NTGiubileo Admin Panel | Next Js, TypeScript, Tailwind CSS, Redux Toolkit,Ant Design

- Built a secure admin panel with Next.js for managing plans, users, orders, and transactions.
- Enabled country and region-specific plan creation to restrict visibility based on the user's location.
- Managed bonus plans and tracked user purchase history.
- Implemented server-side API calls in Next.js to enhance data security.
- Allowed content management for the user-facing frontend directly from the admin panel.

NTGiubileo User Frontend | Next Js, TypeScript, Tailwind CSS, Redux Toolkit,Material UI

- Created an engaging user-facing site using Next.js, Redux Toolkit, Framer Motion, and Material UI.
- Ensured strong authentication flow, restricting plan purchases to registered and logged-in users.
- Integrated a secure payment system with React-Credit-Card for plan purchases.
- Designed a visually appealing landing page with smooth animations using Framer Motion.
- Ensured secure API communication through server-side API calls in Next.js.

NTMobile Admin Panel | Next Js, TypeScript, Tailwind CSS,Ant Design, Redux Toolkit

- Developed an admin panel using Next.js, TypeScript, Tailwind CSS, Redux Toolkit, MongoDB, and Ant Design.
- Managed VIP numbers and regular numbers, enabling users to purchase plans through the platform.
- Implemented order tracking, displaying completed orders with user details.
- Integrated transaction management to monitor payment records.
- Designed a user management system to handle user data efficiently.
- Created a FAQs management section for easy content updates.
- Project developed for a client based in Italy.
